FOREWORD

1. The **Economic Indicators** provide up-to-date information on changes in the domestic and external economic activities of the major non-Communist developed countries. To the extent possible, the **Economic Indicators** are updated from press ticker and Embassy reporting, so that the results are made available to the reader weeks—or sometimes months—before receipt of official statistical publications. US data are provided by US government agencies.

2. Source notes for the **Economic Indicators** will be published quarterly. The most recent data of publication is 20 April 1977. Comments and queries regarding the **Economic Indicators** are welcomed.
